CIVICO ORTO BOTANICO DI TRIESTE

quote	min. 75 - max. 95 m s.l.m.
coordinate	lat. 45° 39' 11" N long. 13° 47' 29" E
area	10.000 m ²
serre	110 m ²

Il Civico Orto Botanico è di proprietà del Comune di Trieste (sotto la direzione dei Civici Musei Scientifici). L'organizzazione dell'Orto segue criteri sistematici e comprende diverse sezioni.

E' associata una riserva naturale formata dal Bosco Biasoletto e Bosco Farneto (tot. 90 ha).

Verranno sempre inviati i semi di più recente raccolta. Qualora questi fossero esauriti saranno sostituiti con quelli degli anni precedenti.

Tutti i semi sono il risultato di una libera impollinazione, pertanto non è possibile garantire contro eventuali ibridazioni. Si prega di voler segnalare ogni eventuale errore.

Specie invasive

Alcune delle specie offerte possono essere potenzialmente invasive. È responsabilità dell'importatore adottare le necessarie misure affinché queste specie non fuggano dalle coltivazioni.

The Municipal Botanical Garden is owned by Trieste Town Council (and managed by the City Science Museums). The botanical garden is arranged systematically and includes various sections.

The area also includes a nature reserve made up of Biasoletto and Farneto Woods (total area: 90 ha).

Only the most recently gathered seeds are delivered. If we are out of stock, seeds collected in previous years will be used instead.

As all seeds are the result of free pollination, we can provide no guarantee against the appearance of any hybrids. Kindly point out any mistake.

Invasive species

Some of the offered species may potentially be invasive. It is the responsibility of the importer to take the necessary measures to ensure that these species do not escape from cultivation.

NON VIENE RILASCIATO CERTIFICATO FITOSANITARIO

In seguito alla Convenzione Internazionale sulla Biodiversità (Rio de Janeiro 1992), il Civico Orto Botanico di Trieste fornisce semi e piante ad altri orti botanici ed istituzioni di ricerca soltanto alle seguenti condizioni:

- i semi, le piante e le parti di esse devono essere usati per il bene comune per lo studio e lo sviluppo di Orti e Giardini pubblici o di ricerca;
- in ogni circostanza che riguardi la commercializzazione del materiale genetico e/o ogni prodotto, e/o derivato delle piante, l'autorizzazione deve essere richiesta al Civico Orto Botanico di Trieste;
- le pubblicazioni risultanti dall'uso del materiale vegetale fornito da noi, devono essere autorizzate da quest'Istituto in qualità di fornitore.

Al momento dell'ordine di semi ed altro materiale vegetale queste condizioni si considerano accettate.

PHYTOSANITARY CERTIFICATE IS NOT AVAILABLE

Following the International Convention on Biodiversity (Rio de Janeiro, 1992), the Trieste Municipal Botanical Garden supplies seeds and plants to other botanical gardens and research institutions only under the following conditions:

- seeds, plants and their components are to be used for the common good, for study in research facilities or for the development of public and botanical gardens;
- authorization is to be sought from Trieste Municipal Botanical Garden before trading in any of the genetic material and/or products and/or plant derivatives;
- publications stemming from the use of plant material supplied by us are to be authorized by this Institute as the supplier.

Orders received for seeds or other plant material are taken as acceptance of these conditions.
